

INTERNSHIP CERTIFICATE

No:- SVT25071733

TO WHOM IT MAY CONCERN

This is to certify that **Ms. RESHMA SHAIK** (Reg.No. 111624104095) B.E (E.C.E) student of RMK College of Engineering and Technology. She has done her Internship on “**EMBEDDED SYSTEMS**” at our center in Nellore from 01-06-2025 to 30-06-2025.

She has successfully completed her training and actively involved in the tasks assigned.

During her internship she has demonstrated good communication Skills and Self Motivated attitude to learn new things. Her attendance and Performance during this period was Satisfactory.

We wish her all the best for her future endeavour.

For SV Technologies.

Performance Evaluation by Industry Mentor

Name of the Student:	Shaik. Reshma	Register Number:	111624104095
Name of the Institution:	RHK College of Engineering and Technology	Industry Mentor Name:	B. Venkata Sumanth
Name of the Industry:	SV Technologies	(End Date)	30-06-2025
Internship From (Start Date)	01-06-2025 to		

Parameters	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)
Produces high quality work	✓			
Shows initiative		✓		
Learns quickly	✓	✓		
Accepts responsibility		✓		
Accepts criticism		✓	✓	
Demonstrates organizational skills	✓	✓		
Uses technical knowledge and expertise		✓		
Shows good judgment		✓		
Demonstrates creativity/originality			✓	
Analyze problems effectively		✓		
Is self-reliant	✓			
Cooperates with co-workers and supervisors		✓		
Communicates well	✓			
Writes effectively	✓			
Has a professional attitude		✓		
Gives a professional appearance		✓		
Is punctual	✓			
Uses time effectively	✓			

Name of Industry Mentor: B. Venkata Sumanth

Signature of Industry Mentor: B. Venkata Sumanth

Internship Self-Reflection Report / Feedback Form

1. Student Details

- Name: Shaik. Reshma
- Register Number: 111624104095
- Batch: BC - ECE
- Department: Electronics and Communication Engineering
- College Name: R.M.K. College of Engineering and Technology
- Internship Organization: SV Technologies
- Internship Role / Title: Embedded Systems
- Duration (From - To): 01-06-2025 to 30-06-2025

2. Internship Summary

Briefly describe your role, the domain (e.g., Embedded Systems, VLSI, Communication, Signal Processing, etc.), and your major responsibilities.

Example: I worked as an Embedded System Intern at ABC Technologies, developing sensor interfacing modules using Arduino and writing C code for microcontroller-based automation tasks.

I worked as Embedded System Intern at SV technologies, designing circuits and simulating them using different components like Arduino boards, Node MCU, IR sensors etc. Every week an activity was performed to gain more practical and theoretical knowledge.

3. Major Technical Skills Learned / Applied

Technical Area	Applied/Learned	How It Was Used or Learned
programming languages RTOS	proficiency in C and C++ Free RTOS/Vxworks	fundamental for Embedded managing tasks & subroutines
Hardware debugging	logic analyzers	trouble-shooting soft & hardware

4. Soft Skills & Professional Growth

Skill	Developed? (✓)	Notes (How it helped your growth)
Verbal/Written Communication	✓	used for reference
Team Collaboration	✓	for better communication
Time Management	✓	to develop punctuality
Initiative / Ownership	✓	to foster a proactive mindset
Adaptability & Learning Speed	✓	increased responsibility & skill development

5. Reflection Questions

Write concise answers for each:

- What challenges did you face while working on technical tasks? How did you solve them? can be solved by optimize code & Resource management
technical challenges include limited resources, debugging complex systems
- Describe a situation where your classroom knowledge helped in solving a practical problem. I faced a practical problem where a sensor wasn't accurately reporting data due to timing issue. RTOS was crucial in resolving issue.
- What part of the internship excited or motivated you the most? System hands-on experience of building and programming real world
- How has this experience influenced your interest in a specific ECE domain? By gaining practical experience in Embedded systems can explore areas like microcontroller programming, RTOS and automotive systems

6. Future Skills & Career Planning

- Areas I would like to explore further or improve: Endurables. increasing demand for connectivity and intelligence in various
- Has this internship clarified or changed your future career interests?

☒ Yes / ☐ No (Circle one)

If yes, explain how: Alters students career interests by providing hands-on experience, exposure to industry practices

7. Feedback for the Host Company

Mention what was done well and what could be improved from your perspective.

A positive aspect was practical application of theoretical knowledge, and focusing on specific hardware & software skills

8. Declaration

I hereby declare that the above information is true to the best of my knowledge and reflects my genuine learning experience during the internship.

Student Signature: Sh. Rishabh

Date: 30/6/2025

Internship Daily Report (Log Entry)

Name of the Student	shaik. Reshma
Register Number / Roll No.	111624104095
Branch / Department	BE - ECE
Name of the College	RMK College of Engineering & Technology
Name of the Company / Industry	SV Technologies
Address of the Organization	Narabpet Nellore
Internship Duration (From-To)	01-06-2025 to 30-06-2025
Daily Working Hours	2-3 hours
Name & Designation of Supervisor (Industry Mentor)	B. Venkata Sumanth

Sl. No.	Date	Day	Time In	Time Out	Total Hours	Task performed/ Work done	Tools / Software Used	Skills Applied / Learned	Supervisor Signature
1	1/6/25	1	10:0AM	12:0PM	2hrs	week 1 introduction to IoT	Arduino board	basic GPIO	B. Vimala
2	2/6/25	2	10:0AM	12:0PM	2hrs	Introduction	NodeMCU	Embedded C	B. Vimala
3	3/6/25	3	10:0AM	12:0PM	2hrs	wireless protocol	ATMEGA328P	controller	B. Vimala
4	4/6/25	4	10:0AM	12:0PM	2hrs	programming	LED in Tink	program	B. Vimala
5	5/6/25	5	10:0AM	12:0PM	2hrs	Flask by theta	Sensors	write code	B. Vimala
6	6/6/25	6	10:0AM	12:0PM	2hrs	NodeMCU	usages	analog sensor	B. Vimala
7	7/6/25	7	10:0AM	12:0PM	2hrs	Various communicating	pins	protocols	B. Vimala
8	8/6/25	8	10:0AM	12:0PM	2hrs	serial communication	Serial	UART, SPI	B. Vimala
9	9/6/25	9	10:5AM	12:5PM	2hrs	object detection	SR sensor	-task	B. Vimala
